Up to \$350,000 in Homebuyer Assistance Available through 2017 Fire Recovery Funds

Sacramento, CA – Eligible low- to moderate-income California households who lived in areas affected by the 2017 wildfires may qualify for up to \$350,000 in homebuyer assistance through the [ReCoverCA Homebuyer Assistance \(HBA\) Program](#), administered by the Golden State Finance Authority (GSFA).

The [2017 Fire Recovery allocation](#) helps individuals and families purchase homes in areas with lower wildfire risk by providing down payment and closing cost assistance. The program bridges the affordability gap between what an eligible household can afford and the total cost of homeownership. The assistance is offered as a deferred-payment loan that accrues no interest, has no monthly payments, and is forgiven after five years of continued ownership and occupancy.

To be eligible, applicants must have been residing in a primary residence located in a [High or Very High Fire Severity Zone](#) within a qualifying disaster area in 2017 and meet income requirements of generally up to 80 percent of Area Median Income, based on household size. There is no requirement to be a first-time homebuyer, and perfect credit is not necessary to qualify. Applicants are not required to show direct impact from the disaster.

2017 Qualifying Disaster Areas:

- Sonoma County
- Ventura County
- Zip Code 95470 (Mendocino County)
- Zip Code 95901 (predominantly Yuba County)
- Zip Code 94558 (predominantly Napa County)
- Zip Code 95422 (City of Clearlake, Lake County)
- Zip Code 93108 (Montecito, Santa Barbara County)

“This homebuyer assistance can be life-changing for low- to moderate-income families,” says Carolyn Sunseri, Director of Marketing and Stakeholder Relations at GSFA. “It provides a pathway to stable, long-term homeownership and lets families choose to live in areas safer from fire risk.”

The program is provided by the California Department of Housing and Community Development as part of California’s Disaster Recovery Action Plan and funded by a Community Development Block Grant - Disaster Recovery from the U.S. Department of Housing and Urban Development (HUD). GSFA, a public

agency with more than 33 years of experience in implementing affordable housing programs, manages and administers the program.
